

## Moodle LMS LTI Tool Configuration

This document will walk Moodle administrators through the LTI 1.3 tool configuration to integrate SAGE Vantage with Moodle. This tool will allow instructors the ability to create deep links and sync grades between Vantage and their Moodle courses.

1. Log into your Moodle LMS as an Administrator. Next, go to **Site Administration** in the left navigation menu.

- 8. After you send the Tool Configuration Details to your SAGE Technical Implementation Specialist, you will receive confirmation that the integration is complete on the SAGE side. We recommend that you attempt to add a link to Vantage in a sandbox course to confirm the tool configuration is working.
  - a. Go to the module you wish to add content to. Select the link to **Add an activity or resource**.

i. You may see SAGE Vantage in your list of Activities. If not, select the External Tools link. Click the Add button.

ii. If you had the SAGE Vantage activity, click on the Select Content button.
 If you selected External Tools, choose SAGE Vantage from the
 Preconfigured Tool dropdown and then click the Select Content button.

b. You should see the following error message that you do not have a valid Vantage account:

"Message: Your learning management system email [your\_email@school.edu] does not match an existing account in SAGE Vantage. Please contact collegetechissues@sagepub.com so that our support team can create or merge your accounts."

Seeing this error indicates you have authenticated into Vantage to the point where it is doing a user check. Since the user check is looking for an instructor account, this message indicates the configuration is correct.
